Subject: Fwd: Results - Stage 1 (Combined)

Unfortunately I have to report a serious blunder on my part whilst scoring the match today using PractiScore.

Everything was going fine, scored the 15 shooters on stage 1 (ipsc pistol), all good. Went to shoot stage 2, and 6 shooters left the range, didn't want to shoot stage 2. All good so far, however, in my pursuit of tidiness and efficiency, I deleted the 6 shooters from the shooting list for stage 2 ,(should have just left them alone) . Turns out you can't do that without losing them from the results of stage 1 , as I set the match up with 2 stages (turns out you shouldn't do that either).

So, to summarise !

Stage 2 is scored perfectly.

Stage 1 , not so !

Stage 1 now only has 9 shooters results, as the remaining 6 (that I deleted) have been wiped. Kevin had a good score also !

Hope you can follow this tale of woe !

My humblest apologies to all.

Regards.

Ross.
